

General Assembly

January Session, 2017

Amendment

LCO No. 7122

Offered by:

REP. BARAM, 15th Dist.

SEN. LEONE, 27th Dist.

To: Subst. House Bill No. 7118

File No. 189

Cal. No. 158

"AN ACT CONCERNING BIOLOGICAL PRODUCTS."

1 Strike everything after the enacting clause and substitute the
2 following in lieu thereof:

3 "Section 1. Section 20-619 of the general statutes is repealed and the
4 following is substituted in lieu thereof (*Effective October 1, 2017*):

5 (a) For the purposes of section 20-579 and this section:

6 (1) "Biological product" has the same meaning as provided in 42
7 USC 262;

8 [(1)] (2) "Brand name" means the proprietary or trade name selected
9 by the manufacturer and placed upon a drug product, its container,
10 label or wrapping at the time of packaging;

11 [(2)] (3) "Generic name" means the established name designated in

12 the official United States Pharmacopoeia-National Formulary, official
13 Homeopathic Pharmacopoeia of the United States, or official United
14 States Adopted Names or any supplement to any of said publications;

15 (4) "Interchangeable biological product" means a biological product
16 that: (A) The federal Food and Drug Administration has licensed and
17 determined to meet the standards for interchangeability pursuant to 42
18 USC 262(k)(4), or (B) is therapeutically equivalent to another biological
19 product, as set forth in the latest edition of or supplement to the
20 federal Food and Drug Administration's publication "Approved Drug
21 Products with Therapeutic Equivalence Evaluations";

22 [(3)] (5) "Therapeutically equivalent" means drug products that are
23 approved under the provisions of the federal Food, Drug and
24 Cosmetic Act for interstate distribution and that will provide
25 essentially the same efficacy and toxicity when administered to an
26 individual in the same dosage regimen;

27 [(4)] (6) "Dosage form" means the physical formulation or medium
28 in which the product is intended, manufactured and made available
29 for use, including, but not limited to, tablets, capsules, oral solutions,
30 aerosol, inhalers, gels, lotions, creams, ointments, transdermals and
31 suppositories, and the particular form of any physical formulation or
32 medium that uses a specific technology or mechanism to control,
33 enhance or direct the release, targeting, systemic absorption, or other
34 delivery of a dosage regimen in the body;

35 [(5)] (7) "Epilepsy" means a neurological condition characterized by
36 recurrent seizures; and

37 [(6)] (8) "Seizures" means a disturbance in the electrical activity of
38 the brain. [; and]

39 [(7) "Antiepileptic drug" means a drug prescribed for the treatment
40 of epilepsy or a drug used to prevent seizures.]

41 (b) Except as limited by subsections [(c), (e) and (i)] (f), (h) and (l) of

42 this section, unless the purchaser instructs otherwise, the pharmacist
43 may substitute a generic drug product with the same strength,
44 quantity, dose and dosage form as the prescribed drug product which
45 is, in the pharmacist's professional opinion, therapeutically equivalent.
46 When the prescribing practitioner is not reasonably available for
47 consultation and the prescribed drug does not use a unique delivery
48 system technology, the pharmacist may substitute an oral tablet,
49 capsule or liquid form of the prescribed drug as long as the form
50 dispensed has the same strength, dose and dose schedule and is
51 therapeutically equivalent to the drug prescribed. The pharmacist shall
52 inform the patient or a representative of the patient, and the
53 practitioner of the substitution at the earliest reasonable time.

54 (c) Except as limited by subsections (f), (h) and (l) of this section,
55 unless the purchaser instructs otherwise, the pharmacist may
56 substitute a biological product for a prescribed biological product if:
57 (1) It is an interchangeable biological product, and (2) the practitioner
58 has not specified, in the manner described in subsection (f) of this
59 section, that there shall be no substitution for the prescribed biological
60 product.

61 (d) (1) Upon the dispensing of an interchangeable biological product
62 to a patient, the pharmacist shall inform the patient or a representative
63 of the patient of a substitution of an interchangeable biological product
64 for a prescribed biological product. Not later than forty-eight hours
65 after the pharmacist has informed the patient or representative of the
66 patient of the substitution, the pharmacist shall make an entry
67 documenting the substitution in a manner authorized pursuant to
68 subsection (m) of this section, and (2) prior to delivering an
69 interchangeable biological product to a patient through mail, shipment
70 or parcel delivery service, the pharmacist shall contact the patient or a
71 representative of the patient by telephone and inform the patient or
72 representative when the interchangeable biological product will be
73 delivered and confirm that the patient or representative will be present
74 for the delivery. If the patient or a representative of the patient is
75 present, delivery of the interchangeable biological product shall not be

76 made unless the patient or a representative of the patient
77 acknowledges receipt of the interchangeable biological product in
78 writing. If the patient or a representative of the patient is not present at
79 the time of delivery, the patient or representative of the patient may
80 confirm receipt of the interchangeable biological product pursuant to
81 subsection (n) of this section. Not later than forty-eight hours after
82 contacting the patient, the pharmacist shall make an entry
83 documenting compliance with this subdivision in the patient's medical
84 or pharmacy record, in a manner authorized pursuant to subsection
85 (m) of this section.

86 (e) Upon the dispensing of an interchangeable biological product,
87 but not later than forty-eight hours following the dispensing of such
88 product, the pharmacist shall inform the prescribing practitioner by
89 facsimile, telephone or electronic transmission of the substitution of
90 such interchangeable biological product for a prescribed biological
91 product.

92 ~~[(c)]~~ (f) A prescribing practitioner may specify in writing or by a
93 telephonic or other electronic communication that there shall be no
94 substitution for the specified brand name drug product or prescribed
95 biological product specified on any prescription form, provided (1) for
96 written prescriptions, the practitioner shall specify on the prescription
97 form that the drug product or prescribed biological product is "brand
98 medically necessary" or "no substitution", (2) for prescriptions
99 transmitted by telephonic means, the pharmacist shall specify "brand
100 medically necessary" or "no substitution" on the prescription form in
101 the pharmacist's handwriting or in the electronic prescription record
102 and shall record on the prescription form the time the telephonic
103 authorization was received and the name of the person who
104 communicated the telephonic authorization to the pharmacist, and (3)
105 for prescriptions transmitted by any other electronic communication,
106 the practitioner shall select the dispense as written code on the
107 certified electronic prescription form to indicate that a substitution is
108 not allowed by the practitioner. No prescription form for written
109 prescriptions, and no prescription form for prescriptions transmitted

110 pursuant to subdivision (2) or (3) of this subsection, may default to
111 "brand medically necessary" or "no substitution".

112 [(d)] (g) Each pharmacy shall post a sign in a location easily seen by
113 patrons at the counter where prescriptions are dispensed stating that,
114 "THIS PHARMACY MAY BE ABLE TO SUBSTITUTE A LESS
115 EXPENSIVE DRUG PRODUCT OR INTERCHANGEABLE
116 BIOLOGICAL PRODUCT WHICH IS THERAPEUTICALLY
117 EQUIVALENT TO THE ONE PRESCRIBED BY YOUR DOCTOR
118 UNLESS YOU DO NOT APPROVE." The printing on the sign shall be
119 in block letters not less than one inch in height.

120 [(e)] (h) A pharmacist may substitute a drug product under
121 subsection (b) or interchangeable biological product under subsection
122 (c) of this section only when there will be a savings in cost passed on to
123 the purchaser. The pharmacist shall disclose the amount of the savings
124 at the request of the patient.

125 [(f)] (i) Except as provided in subsection [(g)] (j) of this section, when
126 a pharmacist dispenses a substitute drug product as authorized by
127 subsection (b) of this section or an interchangeable biological product
128 as authorized by subsection (c) of this section, the pharmacist shall
129 label the prescription container with the name of the dispensed drug
130 product or interchangeable biological product. If the dispensed drug
131 product or interchangeable biological product does not have a brand
132 name, the prescription label shall indicate the generic name of the drug
133 product or the nonproprietary name of the interchangeable biological
134 product dispensed along with the name of the manufacturer of the
135 drug [manufacturer or distributor] product or interchangeable
136 biological product.

137 [(g)] (j) A prescription dispensed by a pharmacist shall bear upon
138 the label the name of the drug or biological product in the container
139 unless the prescribing practitioner writes "DO NOT LABEL", or words
140 of similar import, on the prescription or so designates in an oral or
141 electronic transmission of the prescription.

142 [(h)] (k) Neither the failure to instruct by the purchaser as provided
143 in subsection (b) of this section nor the fact that a sign has been posted
144 as provided in subsection [(d)] (g) of this section shall be a defense on
145 the part of a pharmacist against a suit brought by any such purchaser.

146 [(i)] (l) Upon the initial filling or renewal of a prescription that
147 contains a statistical information code based upon the most recent
148 edition of the International Classification of Diseases indicating the
149 prescribed drug is used for the treatment of epilepsy or to prevent
150 seizures, a pharmacist shall not fill the prescription by using a different
151 drug manufacturer or distributor of the prescribed drug or biological
152 product, unless the pharmacist (1) provides prior notice of the use of a
153 different drug or biological product manufacturer or distributor to the
154 patient and the prescribing practitioner, and (2) obtains the written
155 consent of the patient's prescribing practitioner. For purposes of
156 obtaining the consent of the patient's prescribing practitioner required
157 by this subsection, a pharmacist shall notify the prescribing
158 practitioner via electronic mail or facsimile transmission. If the
159 prescribing practitioner does not provide the necessary consent, the
160 pharmacist shall fill the prescription without such substitution or use
161 of a different drug or biological product manufacturer or distributor or
162 return the prescription to the patient or to the patient's representative
163 for filling at another pharmacy. If a pharmacist is unable to contact the
164 patient's prescribing practitioner after making reasonable efforts to do
165 so, such pharmacist may exercise professional judgment in refilling a
166 prescription in accordance with the provisions of subsection (b) of
167 section 20-616. For purposes of this subsection, "pharmacy" means a
168 place of business where drugs and devices may be sold at retail and for
169 which a pharmacy license was issued pursuant to section 20-594,
170 including a hospital-based pharmacy when such pharmacy is filling
171 prescriptions for employees and outpatient care, and a mail order
172 pharmacy licensed by this state to distribute in this state. "Pharmacy"
173 does not include a pharmacy serving patients in a long-term care
174 facility, other institutional facility or a pharmacy that provides
175 prescriptions for inpatient hospitals.

176 (m) Not later than forty-eight hours following the dispensing of an
177 interchangeable biological product, the dispensing pharmacist or the
178 pharmacist's designee shall make an entry of the specific product
179 provided to the patient, including the name of the product and the
180 manufacturer of the product. The entry shall be made in a manner that
181 provides notice to the prescriber and may be made through one of the
182 following means: (1) An interoperable electronic medical records
183 system, (2) an electronic prescribing technology, (3) a pharmacy benefit
184 management system, or (4) a pharmacy record. If the entry is not made
185 by any of the means specified in subdivision (1), (2), (3) or (4) of this
186 subsection, the pharmacist shall communicate the product dispensed
187 to the prescriber using either facsimile, telephone or electronic
188 transmission, provided such communication shall not be required
189 when a refill prescription is not changed from the product dispensed
190 on the prior filling of the prescription. The provisions of this
191 subsection shall not apply to interchangeable biological products
192 dispensed by a pharmacy operated by a hospital licensed in
193 accordance with the provisions of chapter 368v.

194 (n) Each prescription for an interchangeable biological product that
195 is delivered to a patient through mail, shipment or parcel delivery
196 service shall contain a written notice to the patient detailing the
197 specific interchangeable biological product being shipped, the name of
198 the pharmacist or pharmacy providing the prescription and contact
199 information, including, but not limited to, a telephone number the
200 patient may call to confirm receipt of the interchangeable biological
201 product or if he or she has questions regarding the prescription.

202 [(j)] (o) The commissioner, with the advice and assistance of the
203 commission, shall adopt regulations, in accordance with chapter 54, to
204 carry out the provisions of this section.

205 Sec. 2. (NEW) (*Effective October 1, 2017*) Prior to prescribing a
206 biological product, as defined in section 20-619 of the general statutes,
207 as amended by this act, a prescribing practitioner shall discuss with the
208 patient or a representative of the patient the treatment methods,

209 alternatives to and risks associated with the use of such biological
210 product. The prescribing practitioner shall document such discussion
211 in the patient's medical record not later than twenty-four hours after
212 such discussion has taken place."

This act shall take effect as follows and shall amend the following sections:		
Section 1	<i>October 1, 2017</i>	20-619
Sec. 2	<i>October 1, 2017</i>	New section
